Thank you for taking the time to think about the topics and categories for TCU's Quality Enhancement Plan (QEP). As you know, we are at the beginning stages of narrowing our topics and we want your input. You are invited to rank the following topics that have been drawn from our recent strategic planning process and to add any comments or your own suggestions for topics.

This information will be used to further narrow our focus. There will be additional time in the next several months to comment on the developing topic. If you have any questions about this process, contact Dr. Catherine Wehlburg (c.wehlburg@tcu.edu) or Dr. Ed McNertney (e.mcnerney@tcu.edu).

The following topics come from our strategic planning process. Please rank them with “1” being the most important topic that we should address with our QEP and “7” being the least important topic that we should address with our QEP.

Understanding that a focus for our QEP might pull from several of these listed areas, do you have any suggestions for a topic that might combine topics?

What other topic or issue do you think we should consider for our QEP that hasn't been mentioned in this survey?

Is your position primarily faculty or staff?
Thank you for your time! To follow the QEP process, you can go to www.sacs.tcu.edu.
